

## **LUTHERAN SUNSET MINISTRIES**

**Report to the Northern Texas-Northern Louisiana Synod Assembly**

**Lutheran Sunset Ministries provides services to 200+ people on a daily basis. Construction was completed in 2009 on new 96 bed skilled nursing facility with all support services available and accessible to the residents. It also includes a 32 bed skilled nursing unit for dementia/Alzheimer's residents. This secure center is free standing but connected to the large facility for support services. This is a special commitment for our ministry to families who have loved ones with this illness.**

**A 24 apartment assisted living facility was constructed as well. There are 4 floor plans to choose from with 4 one room efficiencies and 20 two room apartments. Residents furnish these from their homes when they come to live there. Residents are helped with medications, bathing, and dressing. Meals are provided along with transportation.**

**In addition to the new construction, Lutheran Sunset Ministries has 51 independent living apartments, ranging from one room efficiencies to two bedroom two bath apartments which include an enclosed garage. Four additional two bedroom two bath enclosed one car garage units are on the drawing board and construction on these units should begin by the summer of 2010.**

**Hospice Sunset is our newest program and provides end of life comfort and care to families and their loved one at a very difficult time in their lives. This care is provided in a 25 mile radius of Clifton.**

**Lutheran Sunset Ministries appreciates the ongoing support of congregations and individuals of the Synod. Special mention and appreciation to the women in congregations who send quilts for the annual quilt auction in October.**

**Clifton is a great place to retire. Lutheran Sunset Ministries has all the services needed with the continuum of care on our campus plus the local clinic and hospital across the street. Clifton has been designated by the State of Texas to be a Certified Retirement Community.
