

Northern Texas-Northern Louisiana DiscipleLife Center for Mission at Briarwood

The NT-NL *DiscipleLife* Center for Mission at Briarwood is the centerpiece of our mission work together. We will develop this asset into a premier facility for Leadership Formation for the people of our mission territory and far beyond.

While the long-range site plan is under development, our vision is to develop the Quail Run Lodge into the Formation Center by expanding the current facility and adding additional state-of-the-art classrooms, meeting areas, and planning offices for staff.

Proposed Site Plan for Quail Run Training Center with expanded Lodge and additional training buildings.

The Quail Run Lodge will be renovated and expanded

to hold up to 180 people in a classroom setting. This training area will provide for video projection and internet conferencing so that events held at Briarwood can be streamed

throughout our mission territory for live distance learning. In

addition the Lodge will be developed as an

indoor Worship Center, fulfilling a long-time dream for Briarwood's spiritual care.

Quail Run Lodge, as expanded, will be state-of-the-art with room for 180 at tables for training and more for worship.

Quail Run view from the air with expanded Lodge and additional training rooms, kitchenette and restrooms.

Adjacent to the lodge will be a second facility that will provide for one large classroom for up to 75 people or three small classrooms for up to 25 people in each. Included in this separate building will be updated

restroom and kitchen facilities to serve the needs of the Quail Run Training Center.

A separate new facility, perhaps at the site of the current nurse's building, will provide offices for the Briarwood Staff and NT-NL Bishop's leadership. Sharing some staff and working together on Leadership Formation Training will

provide savings in staff costs and synergy for development and use of the NT-NL *DiscipleLife* Center for Mission at Briarwood.

Perhaps a tower will be added, with a water feature, to add character to the Formation Center. Note that drawings depicted here are subject to change or development over the next year as the long range site plan is finalized and construction drawings are developed. It is anticipated that the *NT-NL Mission Center at Briarwood* will be concluded and ready for use in 2013 or 2014, as funds become available from *DiscipleLife Alive!*
