2019 Symposium: Suicide Prevention in Faith Communities

VA North Texas Health Care System, in partnership with the VA Center for Faith and Opportunity Initiative and the Columbia Lighthouse Project, will highlight the role faith communities play in suicide prevention and equip you with the tools and resources you need to identify and help those who may be struggling with suicidal thoughts.

VA is working hard to prevent suicide among Veterans, but we can't do it alone.

This event is for the leadership, staff, and partners of faith-based organizations.

Please share accordingly.
