

## Workshop on Creation's Gift of Land

Land is a constant under our feet, and yet, except for those who make their living from the land, we may seldom think of it. We receive all our food and material goods from land. In its broadest sense, land is the place where we live, and it connects us to all life that shares the place with us. This Living Connected workshop will explore the ways we are called to care for land and offer spiritual practices for faith-based action.

NT-NL Public Witness is offering **Living Connected: Land** online twice in March 2021. The presenter is Katrina Martich, a Lutheran Deaconess and licensed environmental engineer in Texas.

**Saturday, March 20, 10:00 AM – 11:30 AM CST**

**Tuesday, March 23, 7:00 PM – 8:30 PM CST**

Register at [www.katrinamartich.com](http://www.katrinamartich.com) for the Zoom link.

Living Connected presents creation care as a spiritual discipline, formed by using the gifts of creation in just and loving ways. Workshops are offered at a reduced cost thanks to a grant from the NT-NL Synod Mission Endowment Fund. For more information, send an email to Katrina at [contact@katrinamartich.com](mailto:contact@katrinamartich.com)
