

## Workshop on Creation's Gift of Energy

Since human beings first captured fire, energy has been a gift we've harnessed to work for us. This Living Connected workshop looks past the one-dimensional argument of oil and gas versus wind and solar to discuss our complex relationship with energy. In the workshop, you'll:

- Reflect on our use of energy and the consequences of our use.
- Consider ways energy connects us to others.
- Receive resources for making energy choices that care for our families and for our neighbors.

NT-NL Public Witness is offering **Living Connected: Energy** online twice in May 2021. The presenter is Katrina Martich, a Lutheran Deaconess and licensed environmental engineer in Texas.

**Saturday, May 22, 10:00 AM – 11:30 AM CST**

**Tuesday, May 25, 7:00 PM – 8:30 PM CST**

Living Connected presents creation care as a spiritual discipline, formed by using the gifts of creation in just and loving ways. Workshops are offered at a reduced cost thanks to a grant from the NT-NL Synod Mission Endowment Fund. For more information, send an email to Katrina at [contact@katrinamartich.com](mailto:contact@katrinamartich.com)
